### Horizons-4 Launch Update

SKY Perfect JSAT Corporation (Head Office: Minato-ku, Tokyo; Representative Director, President & Chief Executive Officer: Eiichi Yonekura; “SKY Perfect JSAT”) announced today the launch schedule for the Horizons-4 communications satellite.

The Horizons-4 satellite marks the fifth satellite by SKY Perfect JSAT and Intelsat (Head Office: Luxemburg, Chief Executive Officer: David Wajsgas) in 20 years, following Horizons-1 (launched in 2003); Horizons-2 (launched in 2007); JCSAT-85/Intelsat 15 (launched in 2009) and Horizons 3e (launched in 2018). Horizons-4 will eventually succeed and replace Horizons-1 in geostationary orbit at the 127 degrees West location.

The Horizons-4 Ku-band payload, which will be jointly owned by both companies\*<sup>1</sup>, will provide capacity for mobility connectivity with expanded coverage over the Pacific Ocean, in addition to the United States, Mexico and the Caribbean.

1. Planned launch date : August 3, 2023 (Japan Standard Time)
2. Launch site : Cape Canaveral Space Force Station, Florida, U.S.A
3. Launcher : SpaceX (Falcon 9)
4. Manufacturer : Maxar (Maxar 1300 series bus)
5. Satellite specifications : (1) Frequency band: Ku-band  
(2) Primary Coverage: North America and Pacific Ocean region
6. Planned orbital slot : 127 degrees West longitude
