SKY Perfect JSAT Corporation

Orbital Lasers, a Startup from SKY Perfect JSAT, Selected as “J-Startup” by Japan's Ministry of Economy, Trade and Industry

SKY Perfect JSAT Corporation (Head Office: Minato-ku, Tokyo; Representative Director, President & CEO: Eiichi Yonekura; “SKY Perfect JSAT”) is pleased to announce that Orbital Lasers Co., Ltd. (Head Office: Minato-ku, Tokyo, Representative Director & CEO: Tadanori Fukushima, “Orbital Lasers”), a startup established in January 2024 by SKY Perfect JSAT, has been selected as the company to join the prestigious “J-Startup” program, promoted by Japan's Ministry of Economy, Trade and Industry (“METI”).

Since its carve-out from SKY Perfect JSAT, Orbital Lasers has been advancing its space debris removal and satellite LiDAR (Light Detection and Ranging) businesses based on innovative satellite laser technology. SKY Perfect JSAT is honored that Orbital Lasers has been selected as the company to join the prestigious “J-Startup” program, in recognition of its continuous efforts to take on unprecedented challenges.

SKY Perfect JSAT will continue to support Orbital Lasers' business, striving to further advance the space industry.

5th Company Selected for J-Startup Program

Pioneering Space Innovation
with Laser Technology

“

The company is committed to staying ahead of global trends in its mission to “By powering innovative satellite laser technology, Orbital Lasers is shaping a better future for humanity and society in this great era of space exploration.”

In collaboration with RIKEN and leading universities, they have developed laser technology for space applications, including “the world's most powerful, compact, and cost-effective laser technology.”

They are also pioneering the development of a LiDAR satellite constellation, a trailblazing business initiative that has yet to be successfully realized globally.

”

Excerpt from the comment explaining the reason for the recommendation.
