SKY Perfect JSAT Holdings Inc.

SKY Perfect JSAT Selected as Component for “FTSE Blossom Japan Sector Relative Index”

We are pleased to inform you that SKY Perfect JSAT Holdings Inc. (Head Office: Minato-ku, Tokyo; Representative Director, President: Eiichi Yonekura) has been selected for the first time as a component of ESG index “FTSE Blossom Japan Sector Relative Index” selected by FTSE Russell, a global index provider.

“FTSE Blossom Japan Sector Relative Index” is comprised of Japanese stocks built by FTSE Russell and evaluated as the top in the sector for their ESG Rating to reflect environmental, social and governance (ESG) responses by sector. In addition, companies with particularly large greenhouse-gas emissions are included only if their efforts to improve are evaluated using TPI Management Quality (MQ) score*. In this way, it supports the transition to a low-carbon economy from the capital market aspect. On March 30, 2022, GPIF (Government Pension Investment Fund), the world's largest pension fund, adopted it as a benchmark for the ESG passive fund.

FTSE Blossom Japan Sector Relative Index

We have already been adopted in the “S&P/JPX Carbon Efficient Index” and “Morningstar Japan ex-REIT Gender Diversity Tilt Index”. As a result of this selection, we have been selected for the constituent stocks of the 3 ESG indexes of the 6 indexes that GPIF uses for Japanese stocks.

Based on SKY Perfect JSAT’s group mission “Space for your Smile” that we have created in 2018, our group will continue to aim for sustainable growth by providing peace of mind, comfort, and enjoyment to people's lives through our business.

*TPI Management Quality (MQ) score: A score that assesses the quality of corporate disclosures in managing GHG emissions and responding to risks and opportunities to transition to a low-carbon economy.
