SKY Perfect JSAT Holdings Inc.

Notice of Organization Changes and Personnel Transfers

SKY Perfect JSAT Holdings Inc. (Head Office: Minato-ku, Tokyo; Representative Director, President: Eiichi Yonekura) announces that the following organizational changes and personnel transfers take effect from April 1, 2022 at SKY Perfect JSAT Corporation (Head Office: Minato-ku, Tokyo; Representative Director, President & Chief Executive Officer; Eiichi Yonekura), a 100% owned subsidiary.

SKY Perfect JSAT Corporation

1. Organization Changes (Effective April 1, 2022)

<Media Business Unit>

The following organizational restructuring will be carried out with the aim of improving customer service in the media business and strengthening expansion into new business areas.

◇Media Business Group

- Platform Sales Division will be renamed as Broadcast Business Division.
- WAKUWAKU JAPAN Business Division will be discontinued.
- New Business Development Division will be newly established to promote new services to existing customers, and to develop businesses in new areas.

◇Communication Group

- Communication Design Division and Customer Relations Division from Media Business Group, and IT Strategy Division from Media Engineering Group will be transferred to Communication Group.

<Space Business Unit>

The following organization changes will be made in order to operate Space Business Unit more functionally and to accelerate efforts in new areas of business innovation.

◇Business Innovation Group

- New Business Promotion Division will be renamed as New Business Development Division.

◇Space Engineering Group

- Network Solution Division will be newly established, and the functions responsible for the network solution operations of Engineering Strategy Division will be transferred.
- Satellite Facilities Management & Administration Division will be renamed as Ground System Division.

◇Direct management under unit

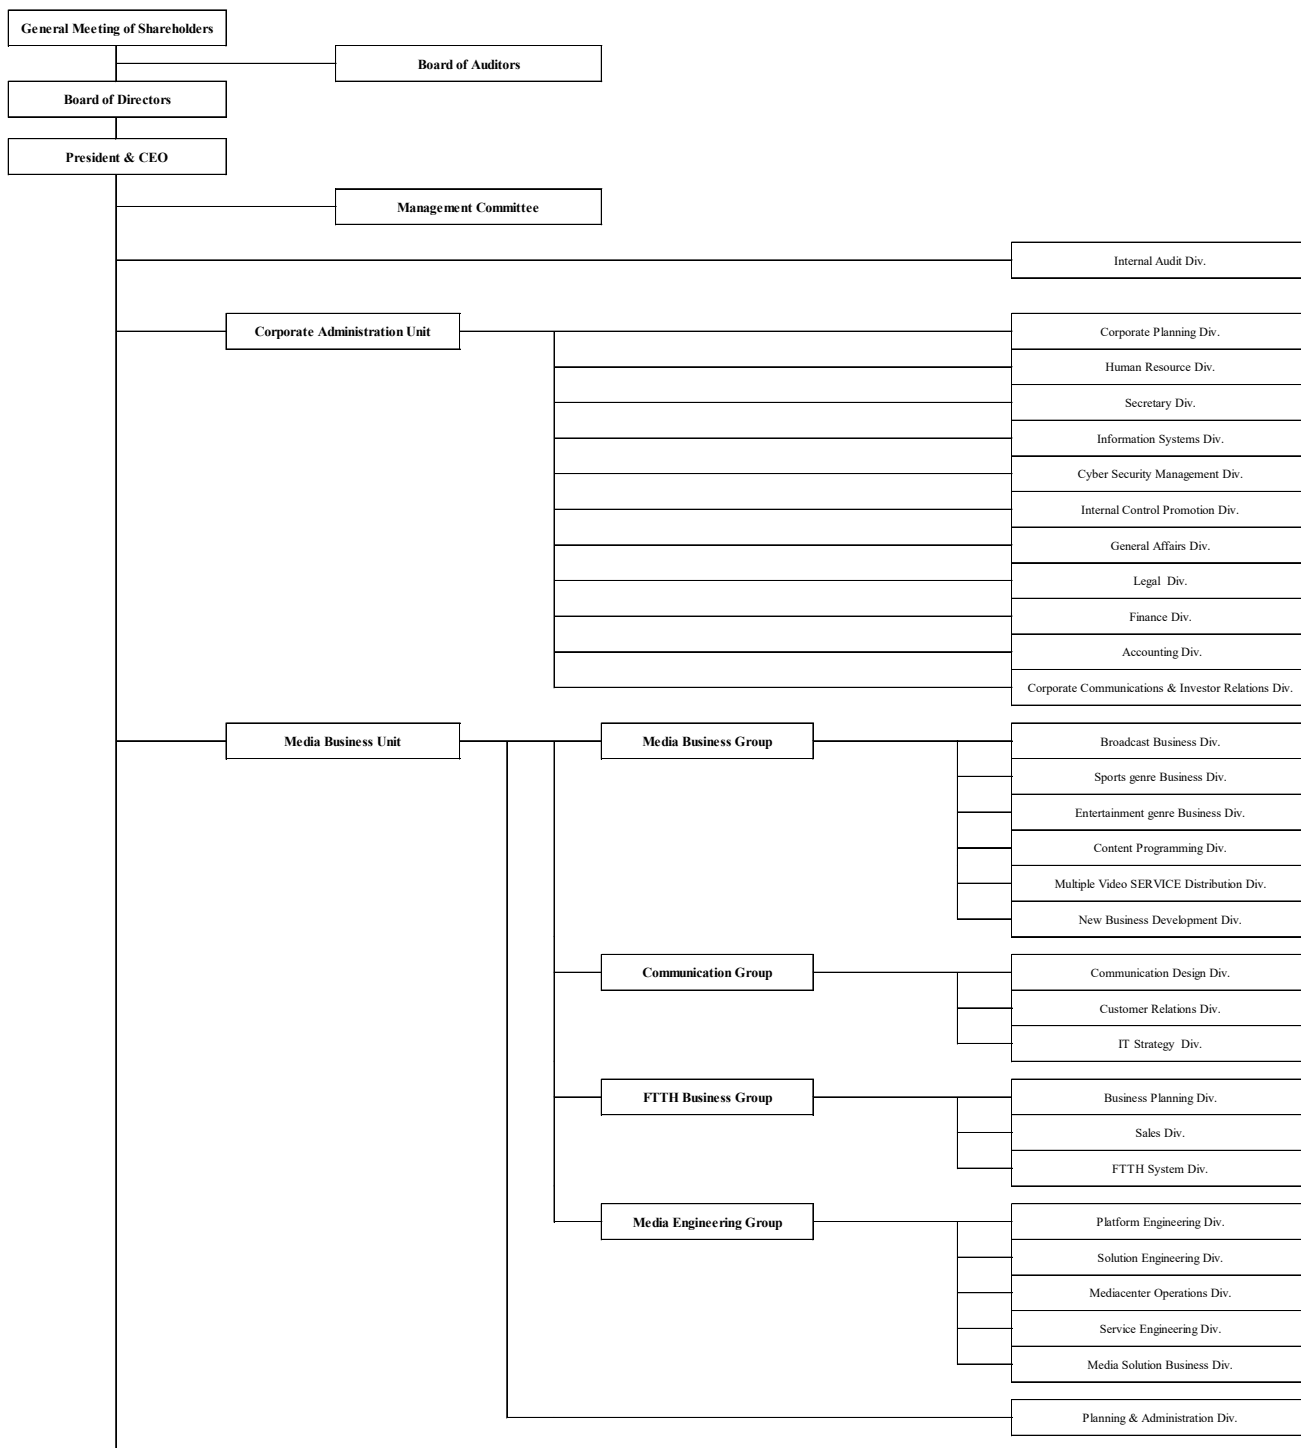

- NTN(Non-Terrestrial-Network) Division will be newly established and Mobile Carrier Division of Space & Satellite Business Group will be integrated, in order to promote the development, construction and operation of non-terrestrial communication infrastructure for 5G / Beyond 5G, and to comprehensively and strategically develop services for mobile communication carriers using existing Geostationary satellites.
