SKY Perfect JSAT Corporation

SKY Perfect JSAT begins service offering with Starlink Business broadband service

SKY Perfect JSAT Corporation (Head Office: Minato-ku, Tokyo; Representative Director, President & Chief Executive Officer: Eiichi Yonekura; SKY Perfect JSAT) has commenced offering of Starlink Business, a broadband service using low-earth-orbit satellites, in Japan as of today. We will provide three service plans: the Standard Plan and Portable Plan for land use, and the Maritime Plan for use at sea.

SKY Perfect JSAT has provided various broadband services using geostationary satellites to meet the demands for communication in mountainous regions, for aircrafts and vessels, as well as for emergency communication in support of business continuity planning. By newly adding Starlink Business to our service lineup, SKY Perfect JSAT can provide a wider range of services that meet customers' demands.

■ Service Plans

Service Plans	Monthly Data	Plan Descriptions
Standard Plan - For Land use	40GB	Provision of satellite-based broadband Internet connection by installing Starlink antenna at locations pre-designated by the customer.
	1TB	
	2TB	
	6TB	
Portable Plan - For Land use	50GB	Provision of satellite-based broadband Internet connection by installing Starlink antenna at any location. The antenna can be carried and used in various locations.
	1TB	
	5TB	
Maritime Plan - For use at Sea	50GB	Provision of satellite-based broadband Internet connection by installing Starlink antenna on vessels or other facilities for use within the territorial waters of Japan.
	1TB	
	5TB
