Forward-looking Statements

Statements about the SKY Perfect JSAT Group's forecasts, strategies, management policies and objectives contained in this presentation that are not based on historical facts constitute forward-looking statements. These statements are strictly based on management's assumptions, plans, expectations and judgments in light of information currently available. These forward-looking statements, facts, and assumptions, are subject to a variety of risks and uncertainties. Therefore, actual results may differ materially from forecasts. The primary risks and uncertainties currently assumed by the SKY Perfect JSAT Group include, but are not limited to, the following:

<Risks Common to the SKY Perfect JSAT Group>

Decline in demand for the SKY Perfect JSAT Group's services;

Constraints imposed on the Group's businesses by new or revised laws and regulations relevant to the SKY Perfect JSAT Group's business and operations;

Inability to develop new businesses as planned, or the failure of such businesses to contribute to operating results;

Advances in video and audio compression technologies accompanying the digitization of telecommunications technologies, or by other communications innovations, broadcasting, satellite and other technologies, all of which may affect the Group's operating results;

Inability to realize or develop future strategic partnerships in relevant fields or to create relationships with partner companies as envisioned; and

Changes in economic conditions, such as interest rates or currency exchange rates, affecting the Group's financial condition

<Risks Mainly Related to the Satellite Operation Business>

Damage, malfunctions or breakdowns experienced by the SKY Perfect JSAT Group's communications satellites;

Failure to launch satellites or place them in proper orbits; launch delays;

Inability to establish an effective backup satellite system;

Inability to conduct business as planned due to a failure or delay in coordinating orbital slots and communication frequencies at the international level;

Cost of satellites exceeding budgets due to changes in satellite specifications, currency exchange rates, or insurance market conditions;

Inability to obtain insurance policies that are economically viable or that provide coverage for all types of accidents that require insurance;

Failure to realize international business partnerships or failure of such partnerships to generate results as expected;

Inability of businesses operated in the U.S. by significant subsidiaries or affiliates to perform as envisioned due to a failure to meet projected order volume or due to other factors; and

Intensifying competition in Japan, Asia, Europe and the U.S. having an adverse effect on the JSAT Group's financial position or operating results.

<Risks Mainly Related to the Broadcast-Related Business>

Changes in the economic environment in relevant business fields; changes in consumer trends in particular;

Changes in legislation such as laws regarding broadcasting and communications, particularly those laws that restrict the SKY Perfect business or proposals to this effect; new business entry by rival companies; and

Ability to develop and continue to provide programs and services acceptable to subscribers in a fiercely competitive market characterized by features such as remarkably rapid technical innovation in the digital technology fields in particular, and the subjective and dynamic customer preferences in the broadcasting business.

Trend in the Number of New Individual Subscribers

(Unit: thousand)

Year-End Sales Rush Battle and Subscribers

■ Troubles caused by SKY PerfectTV! HD tuners have been settled.

■ Year-end TV sales: Large models struggled; mid-, small-sized TV sales excelled.

■ Applications for SKY PerfectTV! e2 free trial experienced significant increases
December 2008 applications was 90 thousand, twice as many as that of prior month, contributing January new registration.

■ January 2009 “Bae Yong Joon Festival” showed positive effects; new record for incoming calls to customer center.

Changes in Churn Rate of Individual Subscribers

< Changes in the average monthly churn rate >

<Major Reasons for Increase in Churn Rate of 3Q/FY2008>

- Most SKY PerfectTV! cancellations were from low-end subscribers.
(See following page)
- SKY PerfectTV! e2 cancellations influenced by seasonality after end of pro baseball or soccer seasons.

SKY PerfectTV! Customer Segments

(Proportion of monthly payment by SKY PerfectTV! subscribers)

Packages of ¥3,500 or more account for more than 75% of all SKY PerfectTV! subscribers

(FY07 Yearly Cancellation Rate)

Packages of ¥1,000 or less represent the highest cancellation rates

* Figures are based on our sample research for 500 thousand subscribers conducted in April 2008
