Launch of Second Phase of SKY PerfectTV! HD Service Expanding Into One of Japan's Largest High-Definition Multi-Channel Broadcasting Services

SKY Perfect JSAT Corporation (Head Office: Minato-ku, Tokyo; President and CEO: Masanori Akiyama; "SKY Perfect JSAT") has announced that on October 1, 2009 it will expand its SKY PerfectTV! HD high-definition channel offerings and launch the second phase of the SKY PerfectTV! HD service.

SKY PerfectTV! HD began with 15 high-definition channels in October 2008. Starting October 1, 2009, the second phase of service will be launched, with the aim of expanding to 70 channels by the end of the fiscal year. The new channel lineup is outlined in the attached reference material.

※ The service will offer a total of 58 high-definition channels in October 2009, and more than 70 channels by spring 2010 (as of September 2009).

SKY Perfect JSAT has evolved as a company alongside Japanese TV viewing culture, and SKY PerfectTV! HD represents the type of service that viewers have come to expect from SKY PerfectTV! and that only SKY PerfectTV! can provide. Subscribers can enjoy a rich television-viewing experience featuring high-quality content from a wealth of genres from Japan and overseas in high definition. SKY Perfect JSAT has been making preparations to expand SKY PerfectTV! HD into one of Japan's largest high-definition channel services, aiming for over 100 channels by 2012.

SKY PerfectTV! Valuable Pack HD

In conjunction with the launch of the second phase, the number of high-definition channels available through the popular SKY PerfectTV! Valuable Pack HD service (¥4,700/month) will jump from the current 8 channels to 40. Combined with the 28 standard-definition channels, this new offering will give viewers a total of 68 channels from which to choose.

※ ntvG+HD is scheduled to come on air at the end of March, 2010.

The New SKY PerfectTV! Select 15 Pack HD

SKY Perfect JSAT will launch an attractively priced new subscription package, SKY PerfectTV! Select 15 Pack HD (¥3,800/month), which allows subscribers to select 15 preferred channels from the SKY PerfectTV! Valuable Pack HD lineup.
