## SKY PerfecTV! Members' Magazines SKY PerfecTV! Days and e2 Days for iPhone/iPad Japan's First Electronic Members' Magazines with Program Search and Social Media Functions

SKY Perfect JSAT Corporation (Head Office: Minato-ku, Tokyo; President & Chief Executive Officer: Masanori Akiyama; "SKY Perfect JSAT") has collaborated with YAPPA Corporation (Head Office: Shibuya-ku, Tokyo; CEO Masahiro Ito) to launch on August 30 electronic versions of its *SKY PerfecTV! Days* and *e2 Days* magazines for subscribers to the SKY PerfecTV! and SKY PerfecTV! e2 services. Japan's first electronic members' magazines, they will feature functions that allow users to search for programs and share information via Twitter. The applications, designed for the iPhone<sup>\*1</sup> and iPad<sup>\*1</sup> devices, are available for free download from the App Store operated by Apple Inc.

*SKY PerfecTV! Days* and *e2 Days* are monthly informational magazines that bring subscribers content such as recommended programming, viewer support and campaign information.

The electronic versions of the magazines for the iPhone<sup>\*1</sup> and iPad<sup>\*1</sup> have been added to further strengthen communication with subscribers and to inform others with an interest in the programming available on SKY PerfecTV!.

The electronic versions use the latest page viewer technology to faithfully reproduce the paper edition and do much more. Users can zoom in and out to view images at whatever size they like, and can search and sort the over 100,000 programs available each month by channel or keyword of their choice to more easily locate preferred programming. These and other features were included in response to customer requests.

In addition, to make sure that viewers do not miss their favorite programs, users can link the application with the built-in calendar functions of the iPhone<sup>\*1</sup> and iPad<sup>\*1</sup> to be alerted when shows are starting.<sup>\*2</sup> Another feature that only a digital magazine could provide is a Twitter-compatible function to help users exchange program information with each other and promote communication.

Going forward, SKY Perfect JSAT will continue to provide highly convenient tools to enable subscribers and the general public to enjoy its multi-channel pay TV broadcasting services.

- \*1 iPhone and iPad are registered trademarks of Apple, Inc. in the U.S. and other countries.
- \*2 Available for iOS4.0 and above
